

Network Estate Chain

Total: 100,000,000,000 NEC

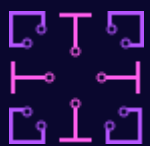

We are standing at a pivotal moment in innovatio! In order to maintain the stable development of the community, we have set up a recommendation mechanism If you are the top 3W address and you invite others to buy, you will get it forever 4% reward of the invitee's purchase amount At the same time, holders of tokens will get points every day, and you can check and collect your income on the website. These very good incentives

NEC Rules

Introduction of BSC chain innovation mode play:

1. 4% of each transaction will be used as a direct push dividend
2. 2% of each transaction is used as a community reward: holding NEC tokens will receive 2% indefinitely and will be divided equally among superiors and bnb
3. 3% of each transaction is used as liquidity return: automatic return, liquidity pairs on PancakeSwap, enhance the bottom of the pool, help the moon landing, half of the transactions are transferred to BNB, and half are used as nec to inject liquidity, permanently locked
4. 1% of each transaction is permanently penetrated into the black hole for destruction lives.

Summary

Blockchain is the underlying technical architecture of a new generation of social business application development infrastructure. Its mature application will promote global society Changes in business development models. The World Economic Forum announced that nearly a hundred central banks are currently discussing the application of blockchain technology Way, especially at the beginning of the year, the most representative JP Morgan Chase and Goldman S

achs officially began to enter the blockchain industry, which also marked the district Blockchain technology is beginning to enter the global social business application with its own decentralization, distributed storage, and non-tamperability. stage. The charm of blockchain technology for global users is that it gives value to Internet information and builds credibility for global users. Any decentralized system. In order to build a complete and effective blockchain NFT (Non-Fungible Token) to better endow the circulation value network of charitable enterprises protecting animals globally. By the top international NEC The founding technical team formed the NEC blockchain technology research laboratory with the purpose of starting from the design and requirements of the blockchain. Seek to start, explore and study the attributes and characteristics of various security mechanisms in blockchain technology, and help rare protect rare animals. Enterprises and institutions solve multiple challenges from algorithm security, protocol security, use security, and system security to help "Blockchain+DEFI+NFT" creates the most secure service solution

Project

omoted the rapid development of global business models and digital

About NEC

In this era when global real estate is rapidly emerging Many people want to invest in real estate because of geographical problems and time. Problems, money problems, etc., can not achieve their wishes. A lot of people don't know where to buy transaction fees too High, opaque policies, extremes and other issues. Cause them Unable to achieve their own investment goals. NEC community is a fun alliance community, the first to propose The concept of real estate NFTization, and want to use community influence to go Convene more people to join the community, let more people pay attention to the NFT of real estate In the future, the process of real estate NFTization can finally be realized. We are some specific chains that are fully implemented to practical applications The community, let the habitual application of some chains, benefit our lives.

NEC Planning

Q1. Project vision Community initial team recruitment Set the basic roadmap

Q2. Community official website construction Community token issuance pancake provides liquidity Promotion

Q3. Increase publicity and promotion Establish a community foundation Centralized platform of settled area Enter the centralized platform

Q4. Contact Real Estate Foundation Establish a real estate

NFT transaction network Promotion

Q5.Online real estate NFT transaction network Increase pu
blicity and promotion
